Monica has extensive experience in traditional and non-traditional massage, and believes that the spa experience is instrumental in achieving a quality, blissful massage. Complimentary private shower, robe, and slippers are provided (Upon Request) to create the total experience.

SWEDISH MASSAGE

The most common type of full-body massage, the Swedish massage promotes relaxation and eases muscle tension. In this massage, the therapist will use a variety of skills to achieve an overall soothing and comfortable massage, leaving you feeling tranquil and serene. This massage is ideal for first-timers or for those who only rarely indulge. Remember, the longer the massage, the better results!

30 minutes \$40.00
60 minutes \$60.00
90 minutes \$90.00

DEEP TISSUE MASSAGE

This full-body massage is a focused massage that uses increasing pressure to release chronic muscle tension and adhesions from deep and connective tissues. The Deep Tissue Massage requires a pleasant, but firmer massage technique. It is essential to drink plenty of water following this massage to reduce potential soreness and to flush the lactic acid in your tissue. This massage is ideal for experienced massagers who have specific muscle stiffness or tension.

30 minutes \$55.00
60 minutes \$75.00
90 minutes \$105.00

HOT STONE MASSAGE

In this full-body massage, the therapist uses traditional massage techniques as well as smooth, heated, sanitized stones to help relax tight, aching muscles. The warm stones placed on your back will be used to gently smooth out the tension and strain in your muscles. The Hot Stone Massage is the perfect way to introduce heat into your massage experience.

60 minutes \$95.00

PRENATAL MASSAGE

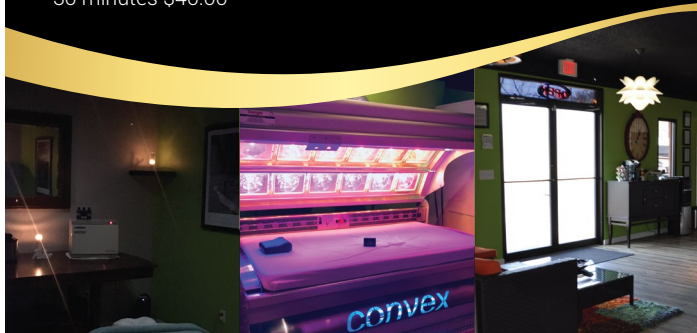

Congratulations, mother-to-be! This massage is designed to help you in your second and third trimesters of pregnancy. These gentle, non-invasive massage techniques promote relaxation, soothe nerves, relieve strained back and leg muscles, and decrease mental and physical fatigue associated with your changing body. This allows the therapist to improve your circulation and enhance the function of your muscles and joints. After all, you deserve some pampering!

60 minutes \$65.00

REFLEXOLOGY MASSAGE

Also known as "zone therapy", reflexology emphasizes the physical act of applying pressure primarily to your feet, and can include your head and hands, which are all points believed to be related to specific organs and glands in your body. Reflexology is a deeply relaxing treatment with benefits that can be felt throughout your entire body. So much more than a foot massage, reflexology is seen by many as a form of alternative medicine.

30 minutes \$40.00

HERBAL HOT TOWEL WRAP

The herbal compresses are ideal for alleviating pain, stiff, sore or pulled muscles and ligaments, chronic back aches, arthritis, even skin conditions, migraines and chronic stress or anxiety. The blend of traditional herbs used in these compresses has a relaxing and invigorating effect on the body and mind, soothing sore and overworked muscles while giving the body's energy reserves a huge boost.

OTHER SPA TREATMENTS

Body Scrubs (salt or sugar)

Like a whole body facial, the body scrub is designed to exfoliate and hydrate your skin, leaving it smooth and soft. Using salt or sugar with a special blend of oils, Monica will gently apply the exfoliate to your body, then remove it with warm towels. Your skin will never feel softer or more hydrated. A private shower is available to you following your session.

60 minutes \$70.00

MUD WRAP

This treatment is designed to detoxify the body and rid it of unwanted toxins through metabolic stimulation. During this body wrap, mud and special oils are applied and you are then wrapped for 20 minutes to keep you warm.
